MEMORANDA

On February 26, Mr. E. J. Williams
saw from his front dining room
window a deer trot out toward
boarding access here from the
between the house and fence
through the light snow. It
continued the length of the
place keeping about the same
distance from the fence
and sprang over the wire fence
into the Danbar place
and was lost to sight.
This morning, Feb. 27, I
was at the house. Mr. Wil-
liams showed me where the
deer had gone and we went
out and I examined the
tracks which were perfectly
distinct.

MEMORANDA

I heard on Feb. 28 that a deer had been caught in Cambridge on the 27th Feb. & torn by contact with wire fences that it had to be killed. This was of course the animal of Feb. 26 seen by Mr. E. F. Williams on her lawn.

This A.M. (March 19) Mr. & I met a policeman corner of Appleton & Highland Sts. He said that on Feb 27 he saw the deer, badly wounded by wire fences, on Humbley by Fresh Pond. It was found up there that morning, and was reported to Police Headquarters. Men were sent up and the poor creature was put out of its misery - I don't know what became of the body -
